===== Query: What are the main sections and chapters? Analysis Date: 2025-09-21 01:09:35 ■ EXECUTIVE SUMMARY
----- The research provides limited evidence, with the following tentative findings:
DETAILED ANALYSIS ===== 1. What are the main sections ----- Confidence: ■ 0.66 Answer: MH methods generate candidate samples in an adaptive way. These are correlated and may require long time to explore the posterior domain. Rejection sampling draws i.i.d. samples from posterior which is inefficient.
